

Name: _____

Date: _____

SOLAR ECLIPSE CROSSWORD

ACROSS

- 2. The fraction of the Sun's diameter covered by the Moon.
- 6. Something that prevents something else from being seen.
- 7. A regular, repeating path that one object in space takes around another one.
- 9. A region of complete shadow.
- 10. When the Moon is farther away from Earth, and does not completely cover the Sun.
- 12. Happens when the Moon passes between the Sun and Earth.

DOWN

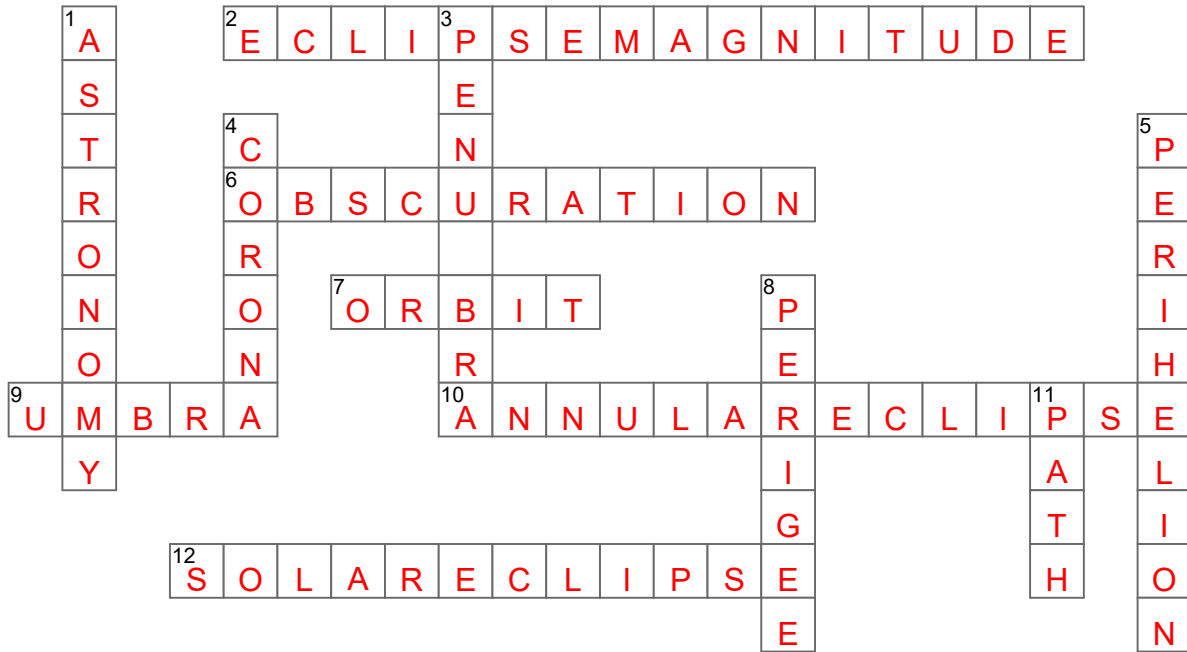

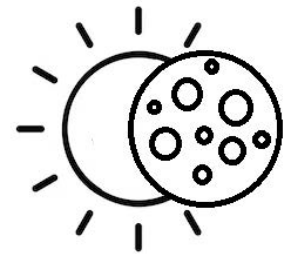

- 1. The study of everything in the universe beyond Earth's atmosphere.
- 3. A partial shadow.
- 4. The Sun's upper atmosphere, visible as a pearly glow during totality.
- 5. The point in the orbit of a planet or other astronomical body, at which it is closest to the sun.
- 8. The point at which the Moon is nearest to the Earth.
- 11. The path traced across Earth by the antumbra.

OBSCURATION	PENUMBRA	ANNULAR ECLIPSE	CORONA
ORBIT	UMBRA	PERIGEE	SOLAR ECLIPSE
PATH	ASTRONOMY	PERIHELION	ECLIPSE MAGNITUDE
