How to solve it

1. **Worthington**: "He was in the Laundry, in the 3rd column." That can only mean column 3, row 4: the **Laundry**.
2. **Ophelia**: "She was in the Laundry, and in the 2nd row!" With the others in place, the only cell left for her is column 1, row 2, the **Laundry**.
3. **Radcliffe**: "Guess what! He was in the 5th row, in the 5th column." With the others in place, the only cell left for him is column 5, row 5, the **Spa**.
4. **Sterling**: "He was in the Lobby and in the 2nd column." With the others in place, the only cell left for him is column 2, row 6, the **Lobby**.
5. **Jeffrey**: "There was a cart in his room too, but he wasn't beside it." With the others in place, the only cell left for him is column 4, row 3, the **Kitchen**.
6. **Simba**: "The lost kitten! He was alone until the finder arrived." With the others in place, the only cell left for him is column 6, row 1, the **Kitchen**.
7. With everyone placed, only **Jeffrey** shares the **Kitchen** with **Simba**, **Jeffrey** is the answer.
